exhibition

OUR STORY.

At ClimateExpo365, we believe there isn't one place that allows potential prospects to get information on Eco-friendly exhibitors and the wider supporting community.

The current marketing opportunities for sustainable and eco friendly exhibitors provides financial challenges for many and restricts the amount of visibility they can get. The costs, and more importantly, the time and climate impact, of attending physical events where members exhibit, are prohibitive for many potential prospects who are just seeking current market understanding and to consider their options.

OUR OBJECTIVE.

With this in mind, we set out to make something different:

- An online digital community where anyone can get easy access and information on every exhibitor in the climate and sustainable space.
- A community where there is no restrictive financial entry barrier to have a presence.
- A community where all exhibitors have an equal status.
- A community that is accessible 24/7 from anywhere in the world.
- A community that provides added value additional information, such as talks, webinars, reports and more.

WHAT DO WE OFFER?

The ClimateExpo365 exhibition hall allows exhibitors to showcase their sustainable businesses and solutions which also provide support and advice. Allowing visitors to browse dedicated floors such as Renewable energy, sustainable construction, Education, zero waste and much more

YOUR VIRTUAL SPACE.

It's no different from a real physical exhibition. Your virtual space is branded for you in your colours and with your logos, plus all of your promotional materials available to our visitors. You can customise your space whenever you want, so if you have a new product or a new logo to unveil, you can easily add this via the Client Profile.

EXPLORE OUR BLOG.

The ClimateExpo365 blog provides tips, advice, guides and interviews on all things in the climate and sustainable industry.

Exhibitors can upload one blog per month to be published on the platform and shared via our social media channels.

Blog

WATCH SEMINARS.

The ClimateExpo365 Seminar Room provides advice, presentations and interviews on all things about climate, and sustainability. Exhibitors can upload one seminar per month to be published on the platform and shared via our social media channels.

COMMUNITY NEWS

The ClimateExpo365 Community News page is a great place for exhibitors to showcase news specific to their business. Where some news, such as company award or a business rebranding, doesn't fit on the blog nor on their virtual space. This page is dedicated to highlighting these time specific news pieces.
